Subject: RE: South Coast Rule 3008 was not previously submitted to EPA for Title V program inclusion
Attachments: 77 FR 54382 TV final approval.pdf

Hi everyone,

I'd like to add two more thoughts. First, I've attached the final Title V program approval FR notice, which lists the rules that were included for South Coast, and Rule 3008 is not listed.

Second, South Coast is not required to submit Rule 3008 as part of their Title V program submittal for EPA approval, but may do so if they want EPA to approve the rule as part of their Title V program.

Laura

Subject: South Coast Rule 3008 was not previously submitted to EPA for Title V program inclusion

Hi Brittany,

South Coast Rule 3008 was not previously submitted to EPA for Title V program inclusion per Laura Yannayon. Please refer to the attached letter, which Laura Yannayon sent me. This shows the withdrawal of the 3000 rules except for Rule 3008. The other rules were resubmitted as a Title V revision and were acted on by EPA (see the 2nd attachment for South Coast's letter). However, Rule 3008 was not included in that resubmission. Since it had been submitted for SIP inclusion, EPA states that they would not have included it in a Title V program approval.

So, Rule 3008 does need to be withdrawn from the SIP and language does need to be included to indicate that it needs to be included in the Title V program.

Sincerely,
Stephanie
